

Vénusz Frying Oil

Vénusz Frying oil with high oleic sunflower oil!

The unique composition of **Vénusz Frying** oil makes it **ideal for producing delicious, crispy, golden fried food.**

Venus Frying oil **combines** the **traditional** values of **sunflower oil and** effectiveness of **Vénusz Fritopti™**. Vénusz Fritopti™ is an edible oil produced using bred seeds so it is **the most heatstable** among sunflower oils thanks to it, that it is **naturally rich in Omega 9***. While a conventional sunflower oil contains about 26% Omega 9, Vénusz Fritopti™ contains TM 80-85%. Due to its Fritopti content, **Vénusz Frying oil is more heatstable when cooked.**

Laboratory test confirms that Venus frying oil even after multiple re-use provides the same excellent, crisps french fries.

Venusz Frying oil is suitable for deep frying, breaded food frying.

Vénusz Frying oil with high oleic sunflower oil!

Vénusz Frying Oil

2 liter variant with dedicated label and shelf ready case.

EAN code: 5 997 003 582 549
